## Activity Report on NSS Day National Leprosy, TB Disease, and Tuberculosis Search Abhiyan

Date: 14th September to 24th September 2019

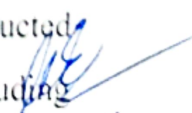

**Organizers:** NSS, Nutan Mahavidyalaya, Sailu, in collaboration with the Central Government

### Introduction

The National Leprosy, TB Disease, and Tuberculosis Search Abhiyan, held from the 14th to the 24th of September 2019, stood as a beacon of health awareness and proactive healthcare in the Sailu region. Organized with the collaborative efforts of NSS, Nutan Mahavidyalaya, Sailu, and the Central Government, this initiative aimed at combating the prevalence of leprosy, tuberculosis (TB) disease, and tuberculosis through extensive screenings and community engagement.

At its core, the Abhiyan sought to raise awareness about these debilitating diseases while emphasizing the importance of early detection and treatment. The campaign encompassed a range of activities, including comprehensive screenings conducted across various localities within the Sailu region. These screenings, spanning 16 areas and reaching out to 1600 households, aimed to assess individuals for symptoms indicative of leprosy and TB disease.

The success of the Abhiyan was not merely in its organizational prowess but in the active participation it garnered from diverse stakeholders. Dr. Sanjay Harbade, esteemed Superintendent of Gramin Hospital, Sailu, emerged as a pivotal figure, leading the charge alongside students and other community members. His expertise and commitment added depth to the initiative, ensuring that screenings were conducted with precision and care. Moreover, the involvement of various stakeholders, including

students and citizens of Sailu, underscored the collective resolve to address these health challenges. By fostering a sense of ownership and responsibility among community members, the Abhiyan transcended its role as a mere health campaign, evolving into a testament of community empowerment and proactive healthcare.

## Objective

- Raise awareness about leprosy, tuberculosis (TB) disease, and tuberculosis for proactive healthcare in Sailu.
- Conduct extensive screenings to detect and treat leprosy and TB disease at an early stage.
- Engage the community in combating the prevalence of leprosy and TB disease through active participation.
- Empower individuals with knowledge and resources to take charge of their health and well-being.
- Foster a sense of responsibility among stakeholders to collectively address health challenges and build healthier communities.

### • Summary:

- The National Leprosy, TB Disease, and Tuberculosis Search Abhiyan, organized from 14th to 24th September 2019, aimed at raising awareness and conducting screenings for leprosy, tuberculosis (TB) disease, and tuberculosis in the Sailu region. The initiative witnessed active participation from Dr. Sanjay Harbade, Superintendent of Gramin Hospital, Sailu, students, and various stakeholders

### Activities Conducted:

**Participation and Screening:** Dr. Sanjay Harbade, along with participating students, led the leprosy search activity, covering 16 areas and visiting 1600 homes. A total of 6530 individuals underwent screenings during the campaign.

**Detection and Assessment:** During the screenings, 35 individuals were identified with symptoms warranting further evaluation for leprosy, emphasizing the importance of early detection and treatment.

**Expert Insights:** Dr. Sanjay Harbade shared valuable insights on leprosy, TB disease, and tuberculosis, highlighting different manifestations and the significance of proactive healthcare measures.

### Key Contributors:

**Dr. Sanjay Harbade:** Superintendent of Gramin Hospital, Sailu, played a pivotal role in leading the screenings and providing expertise on leprosy and related diseases.

**Dr. Sharad Kulkarni:** Principal and organizer of the event, actively facilitated the coordination and execution of the Abhiyan.

**Dr. Ramesh Bainwad:** Director of NSS, Nutan Mahavidyalaya, Sailu, contributed to organizing and mobilizing resources for the successful implementation of the initiative.

**Sailu Citizens and Students:** The active participation of citizens and students from Sailu demonstrated community engagement and commitment towards health awareness and disease prevention.
