Activity Report: RT-PCR Testing Camp at Nutan Mahavidyalaya, Selu

Introduction: On February 21, 2021, the NSS Department and Health Club of Nutan Mahavidyalaya, Selu, organized an RT-PCR testing camp for students. The event was held in collaboration with the Sub-District Civil Hospital, Selu, as part of ongoing efforts to ensure the health and safety of the college's students. The RT-PCR test is one of the most reliable methods for detecting COVID-19, and this initiative aimed to identify any potential cases among the student body to prevent the spread of the virus.

Details of Activity:

Date: 21/02/2021

Location: Sports Department, Nutan Mahavidyalaya, Selu

Organized by: NSS Department and Health Club, Nutan Mahavidyalaya, Selu

In Collaboration With: Sub-District Civil Hospital, Selu

Objective: The primary objective of the RT-PCR testing camp was to test students for COVID-19 to ensure early detection and minimize the risk of spreading the virus on campus. The camp also aimed to raise awareness about the importance of testing and following health protocols to maintain a safe environment.

- **Early Detection of COVID-19:** To identify potential COVID-19 cases among students through RT-PCR testing, allowing for timely intervention and isolation.
- **Ensure Campus Safety:** To minimize the risk of COVID-19 transmission within the college by conducting thorough testing and promoting safety protocols.
- **Raise Health Awareness:** To increase student awareness about the importance of regular COVID-19 testing and adherence to public health guidelines.

- **Collaboration with Health Authorities:** To work in collaboration with the Sub-District Civil Hospital, Selu, ensuring the testing camp meets medical standards and safety protocols.
- **Promote Student Well-being:** To demonstrate the college's commitment to the health and safety of its students by providing essential COVID-19 testing services.

Venue and Setup: The venue for the testing camp was the Sports Department of Nutan Mahavidyalaya, which provided ample space to maintain social distancing and ensure a smooth flow of participants. The setup included designated areas for registration, testing, and post-test observation. Proper sanitization and safety measures were in place throughout the venue.

Activities and Procedures: The camp was conducted with strict adherence to COVID-19 safety protocols. The following activities were carried out:

- **Registration and Consent:** Students were required to register for the RT-PCR test, providing basic information and signing consent forms. The registration process also involved a brief health screening to identify any visible symptoms or recent exposure to COVID-19.
- **RT-PCR Testing:** Trained healthcare professionals from the Sub-District Civil Hospital, Selu, conducted the RT-PCR tests. This involved collecting nasal and throat swabs from each participant, following standard procedures to ensure accurate results.
- **Post-Test Guidance:** After the test, students were given information about what to do while awaiting results and how to isolate themselves if they tested positive. The staff provided clear instructions on who to contact for further assistance and the expected timeline for receiving results.

Participants:The RT-PCR testing camp was open to all students of Nutan Mahavidyalaya, with a significant number participating. This demonstrated a strong commitment to health and safety among the student body and a willingness to take proactive steps to prevent the spread of COVID-19.

Outcome and Impact: The RT-PCR testing camp was successful in testing a large number of students, providing an important service to the college community. The early detection of any potential cases helped reduce the risk of transmission on campus, contributing to a safer environment. The event also raised awareness about the importance of regular testing and following health guidelines.

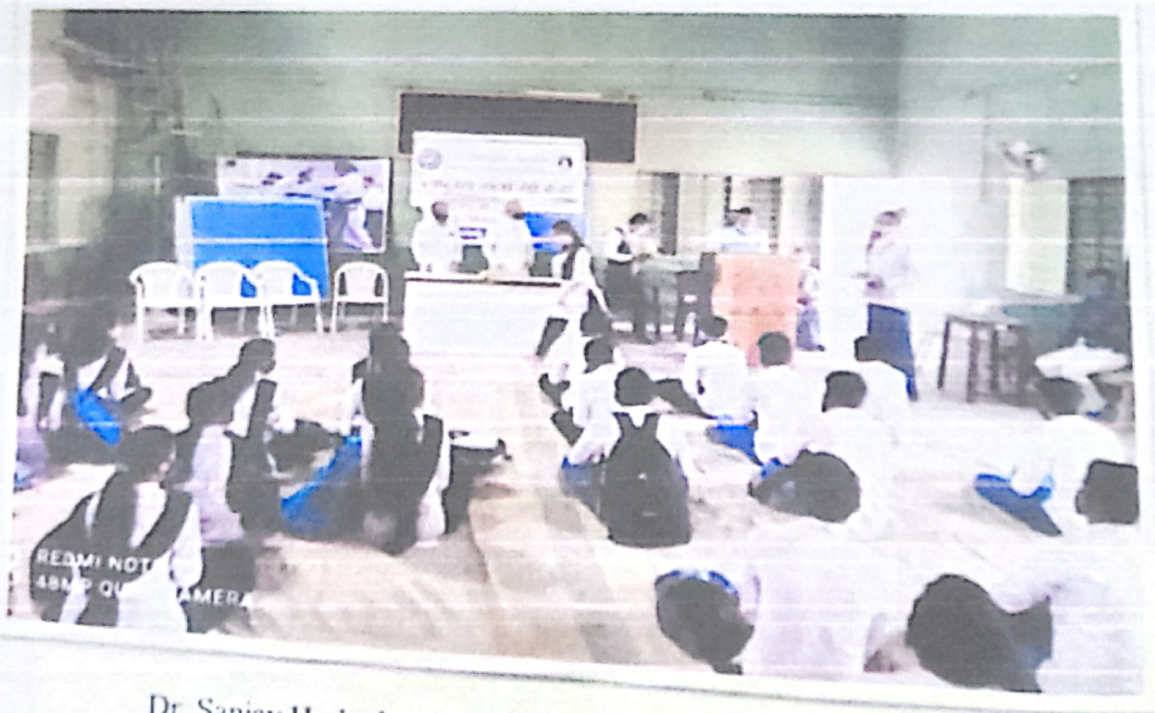

The RT-PCR testing camp held on February 21, 2021, at Nutan Mahavidyalaya, Selu, was a vital initiative that supported the health and safety of students. By collaborating with the Sub-District Civil Hospital, Selu, the NSS Department and Health Club demonstrated their commitment to maintaining a COVID-safe campus. The success of the camp highlighted the importance of ongoing testing and health measures, encouraging students to take responsibility for their health and that of others. Nutan Mahavidyalaya plans to continue such initiatives to ensure a safe learning environment for all.
