“Activity Report: Avishkar Festival 2024 - Poster Competition”

Event: Avishkar Festival 2024 - Poster Competition

Date: January 22, 2024

College: Nutan Mahavidyalaya, Selu

Participants:

- Deepali Tukaram Pote (Topic: Biodiesel Production from Agricultural Material)
- Rutuja Solanke (Topic: Antimicrobial Activities of *Balanites aegyptica* L.)

Introduction:

This report summarizes the participation of students from [Nutan Mahavidyalaya, Selu] in the Poster Competition held as part of the Avishkar Festival 2024 on January 22, 2024. Avishkar Festival serves as a valuable platform for young minds to showcase their scientific knowledge, creativity, and research skills through various activities. This year's poster competition focused on fostering scientific exploration and encouraging communication of scientific ideas visually.

Outcome:

- **Rutuja Solanke:** Secured the First Prize at the district level for her poster on "Antimicrobial Activities of *Balanites aegyptica* L.". This remarkable achievement brought significant recognition to both Rutujaji and the college at the district level.
- The participation of both students showcased their dedication, research skills, and ability to effectively communicate scientific concepts visually.

Recommendations:

- **Organize Pre-Competition Workshops:** Offer optional workshops on research skills, scientific poster design principles, and effective visual communication techniques.
- **Provide Guidance and Support:** Offer guidance and support to participating students throughout the research and poster development process.

 PRINCIPAL
 Nutan Mahavidyalaya
 SELU, Dist. Parbhani

- **Promote Wider Participation:** Encourage wider student participation in future festivals by publicizing the events within the college community and providing

Aims and Objectives of Avishkar Festival 2024-Poster Competition:

Aims:

- To provide students with firsthand experience of the diverse plant life found in a specific region.
- To bridge the gap between theoretical knowledge gained in classrooms and practical application in the field.
- To foster an appreciation for and understanding of the importance of plant life and its role in the ecosystem.

Objectives:

- To expose students to a wider variety of plant species than they may encounter in a classroom setting.
- To allow students to observe plant adaptations, interactions, and functions in their natural habitat.
- To develop skills in identifying and classifying plants through observation and field guides.
- To encourage critical thinking and discussions about the ecological roles of different plant species and the threats they face.
- To promote a sense of environmental responsibility and encourage sustainable practices.

Conclusion:

Nutan Mahavidyalaya's participation in the Avishkar Festival 2024 - Poster Competition proved to be a rewarding experience for both students and the college. Deepali Tukaram Pote and Rutuja Solanke showcased their dedication, research abilities, and talent in visually communicating complex scientific concepts. Notably, Rutuja's first-place win at the district level for "Antimicrobial Activities of *Balanites aegyptica* L." brought significant recognition to both Rutuja and the college, highlighting the potential of student talent. By implementing the suggested recommendations, such as pre-competition workshops, wider participation promotion, and continued research support, the college can further encourage student involvement and enhance their preparation for future Avishkar festivals. This event stands as a testament to the college's commitment to fostering scientific exploration, effective communication, and student success in competitive academic environments.
