Activity Report: Eye Check-up Camp for the College Staff

Date: 15/12/2018

Location: Nutan College, Selu

Organized by: Nutan ShikshanSanstha, Selu

Conducted by: Dr. S. M. Loya, President and Eye Specialist

Introduction:

Nutan ShikshanSanstha, Selu, organized an eye checkup camp for the staff of Nutan College, conducted by Dr. S. M. Loya, the President of the organization and a renowned eye specialist. This camp aimed to promote eye health and provide college staff with the opportunity to get their eyes checked by an experienced professional.

Objective:

The primary objective of the eye checkup camp was to offer college staff an easy and accessible way to assess their eye health. It aimed to identify common eye issues early, provide guidance on eye care, and encourage staff to seek medical attention if any vision-related problems were detected.

Activities and Procedures:

The eye checkup camp was set up in a dedicated area on the college campus, with the necessary equipment to conduct eye examinations. The activities involved the following:

PRINCIPAL
Nutan Mahavidyalaya
SELU, Dist. Parbhani

Registration and Consent: College staff registered for the eye checkup, providing basic information and obtaining consent for the examination.

Eye Examination: Dr. S. M. Loya, with his team, conducted comprehensive eye exams, which included vision tests, eye pressure checks, and examinations for other common eye conditions like cataracts or glaucoma.

Consultation and Recommendations: After the examination, Dr. Loya provided feedback to each participant, offering personalized recommendations for maintaining eye health and suggesting further consultation or corrective measures if required.

Participants:

The eye check-up camp was designed for Nutan College staff, including faculty, administrative personnel, and support staff. The participation was high, indicating a strong interest in eye health and the desire to ensure good vision among college employees.

Outcome and Impact:

The eye checkup camp successfully provided valuable eye health services to the college staff. The screenings helped detect a range of vision-related issues and encouraged staff to seek further treatment if needed. The camp also raised awareness about the importance of regular eye checkups and provided practical advice on maintaining eye health.

Conclusion:

The eye checkup camp conducted by Dr. S. M. Loya for the staff of Nutan College was a successful initiative that supported the health and well-being of the college community. By offering comprehensive eye examinations, the camp emphasized the need for regular eye checkups and encouraged staff to take proactive steps to ensure good vision. Nutan College plans to continue hosting similar events to promote health and wellness among its staff, reinforcing the importance of preventive healthcare.
