## **“Activity Report: Online National Level Wild Plant Flower Photography Competition (2020-2021)”**

**Date: October 7, 2020**

**Level: National**

**Platform: Online**

**College: Shri Vijay Singh Yadav Mahavidyalaya, Peth Vadgaon**

**Participants:**

- **Second Year: 2 students**
- **Third Year: 2 students**
- **Total: 4 students**

### **Introduction:**

This report summarizes the participation of Shri Vijay Singh Yadav Mahavidyalaya, Peth Vadgaon, in the Online National Level Wild Plant Flower Photography Competition, held on October 7, 2020. This competition served as a platform for students to showcase their photographic skills, creativity, and appreciation for the beauty and diversity of wild plant flowers.

### **Outcomes:**

- **Pawan Babashaib Lipne: Secured the Second Prize, achieving national recognition and bringing distinction to the college.**

  
**PRINCIPAL**  
**Nutan Mahavidyalaya**  
**SELU, Dist. Parbhani**

- **Santosh Garde:** Secured the Third Prize, further demonstrating the college's strong representation in the competition.
- The participation of all four students showcased their photographic talent, creativity, and commitment to capturing the essence of wild plant flowers.

### **Recommendations:**

- **Organize Pre-Competition Workshops:** Offer optional workshops on wild plant flower identification, basic photography techniques, and composition for nature photography.
- **Promote Awareness and Participation:** Conduct awareness campaigns within the college to encourage wider student participation in future competitions.
- **Post-Competition Feedback Session:** Organize a feedback session for the participants to share their experiences, insights, and suggestions for future participation.

### **Aims and Objectives of Online National Level Wild Plant Flower Photography Competition:**

#### **Aims:**

- To provide students with firsthand experience of the diverse wild plant life found in a specific region.
- To bridge the gap between theoretical knowledge gained in classrooms and practical application in the field.
- To foster an appreciation for and understanding of the importance of wild plant life and its role in the ecosystem.
- To refine and hone students' photography skills in capturing the beauty and diversity of wild plants.

#### **Objectives:**

- To expose students to a wider variety of wild plant species than they may encounter in a classroom setting.
- To allow students to observe plant adaptations, interactions, and functions in their natural habitat.
- To develop skills in identifying and classifying wild plants through observation and field guides.
- To teach students basic photography techniques suitable for capturing wild plant life, including composition, lighting, and close-up shots.
- To encourage students to document the diversity of wild plant life through photography.
- To promote responsible behaviour while conducting fieldwork and respecting the natural environment.

#### **Conclusion:**

Shri Vijay Singh Yadav Mahavidyalaya's remarkable participation in the Online National Level Wild Plant Flower Photography Competition, held on October 7, 2020, showcased the college's talent and dedication. The competition provided a platform for students to exhibit their photographic skills, creativity, and appreciation for the beauty of wild plant flowers. Pawan Babashaib Lipne's second-place win and Santosh Garde's third-place achievement not

only brought distinction to the college but also highlighted the potential of student talent. By implementing the suggested recommendations, such as pre-competition workshops, wider participation awareness campaigns, and post-competition feedback sessions, the college can further encourage student involvement and enhance their preparation for future national-level competitions. This event serves as a testament to the college's commitment to fostering student talent and providing opportunities for them to excel on a national platform.
